VISUAL CONSTRUCTION DOCUMENTATION: PHOTO, VIDEO & WEBCAM SERVICES

Looking for a better way to document as-built records on your project? Consider the services offered by Multivista. Through an online interface, contractors can monitor actual jobsite conditions through photos, videos, and Webcam services. Multivista's "Visual-As-Built" serve as a permanent digital record for projects.

COMPLETE DOCUMENTATION. TOTAL ASSET VISIBILITY.

and contractors using this technology, *Constructech* editors like that the services are applicable to projects of any size, scope, and duration. With more than 700 million sq.ft., on thousands of construction projects, Multivista has a high level of experience providing these services to the construction industry.

Building on its photo documentation services, the company added video documentation capabilities in November 2011 and Webcam services in January 2012. With big-name owners
